

Innovator Learning Activities

Innovate to protect the Belize coral reefs and wider world

26. Fragments of Hope (part 2)

Requirements:

Innovator team: individually or in pairs

Curriculum: Citizenship

Time: 20 minutes

As an Explorer, you may have learned about **ocean acidification** and **coral bleaching**. Take another look at the videos explaining ocean acidification and coral bleaching on the **[Fragments of Hope website](#)**. Explain ocean acidification and coral bleaching in your own words:

Coral bleaching	
Ocean acidification	

Create an infographic to explain the work of Fragments of Hope.
