

Innovator Learning Activities

Innovate to protect the Belize coral reefs and wider world

30. Take Action (part 2)

Requirements:

Innovator team: as a team of 3-5 innovators

Curriculum: Science; Citizenship

Time: 20 minutes

You are going to work together to take action within your school to help slow climate change, and reduce its effects on the environment, including the Belize Coral Reef System.

What are your group's plans for taking action? Create a plan stating:

- What is the name of your group? Who is in your group?
- Who do you plan to influence?
- How are you going to influence them?
- What are you hoping to achieve and by when?
- How will you know that your action has been a success?
