

Explorer Learning Activities

Explore the coral reefs of Belize

7. Animals and Plants Living in the Belize Coral Reef System (part 1)

Requirements: paper or exercise book for notes

Exploration team: individually

Curriculum: Science, Geography, Science, Art and Design

Time: 20 minutes

Visit EarthMuseum Learn's [digital history explorer map](#), and select 'Fragments of Hope' from the drop-down learning programme menu to discover stories about the Belize coastline.

Find out which animals live in the Belize coral reefs. Make a note of the names of the animals you see.

Visit the [Fragments of Hope website](#) and enjoy the 'More Corals – More Fish Colouring Book'. Make a note of what you have learnt.
