## History Detectives Learning Activities

Searching the world for clues about the  
history of minibeasts on our planet

### 5. Minibeasts and their environment

**Requirements:** access to worksheet from learning activity 2, 3, or 4; drawing materials

**7-11 years:** working individually/ in pairs

**12-14 years:** individually/ in pairs

**Curriculum:** Science (living organisms; biology); Art (drawing; interpretation)

**Time:** 20 minutes

Choose one of the minibeasts you have selected from looking at the interactive learning map. Imagine the environment in which it may have lived and create a drawing about its life in that home space. You could illustrate the detail of its local environment, how it might have moved, or its relationship to other animals/ plants sharing its home, for example.
